Full Stack Developer

ABOUT ME

With over 4 years of hands-on expertise, I have excelled in crafting innovative and dynamic websites as well as robust REST APIs. My proficiency extends beyond technical prowess, encompassing strong organizational and communication skills. I leverage these abilities to meticulously plan and articulate diverse user interface styles that precisely align with the unique requirements of each client.

- With extensive experience, I excel in effective client communication, adeptly gathering and understanding project requirements.
- Proficient in setting up and configuring hosting servers, I specialize in version control and seamless auto-deployments. My expertise extends to platforms such as a2hosting, AWS EC2, and DigitalOcean.
